DCAR DISPENSERS FOR AdBlue®

DELPHIN PRO DC

NEW

MADE IN ITALY

EN. Diesel cars with SCR system require periodic refilling with AdBlue®. To meet this demand, modern servicing centres need equipment that's Rapid, Reliable and Clean. Thanks to ten years of specific experience and following significant investment and long-term testing, PIUSI has created Delphin PRO DC, which makes AdBlue® refilling completely automatic. In achieving this goal, PIUSI confirms its leadership in the sector.

The new system, designed to meet the needs of workshops, is easy to transport and allows AdBlue® to be dispensed safely into vehicles' tanks. Delphin PRO DC is made up of a robust trolley on which the drum of AdBlue® is installed. A push of the start button and the electric pump refills the car. The innovative closed system prevents vapour and smells from leaking out and protects the AdBlue® from any external pollutant. The air in the car's tank is actually transferred to the Delphin's tank when the car is being refilled. Flexible, easy to move and use. Piusi: Innovation and Quality Made in Italy.

ZH. 安装SCR系统的柴油车辆需要定期加注尿素溶液 AdBlue®。为了满足这种需求，在现代化的维修服务中心需要快速、可靠和清洁的设备。PIUSI（派优士）公司凭籍十多年的丰富经验，经过重大投资和长期测试之后，成功制造出可完全自动加注 AdBlue® 的 Delphin PRO 系统。

这个解决方案理想完美，确立了PIUSI在该领域的领先地位。

这个全新的系统，专为满足汽车修理厂的需求而研制，移动方便，可安全地向车辆油箱中加注 AdBlue® 尿素溶液。事实上，Delphin PRO 系统由一台安装了 AdBlue® 尿素桶的结实手推车构成。只需简单地按以下激活按钮，电动泵就会执行车辆的加注。

创新的“封闭系统”可防止蒸汽和异味的外溢，并保护 AdBlue® 尿素溶液免受任何外部污染物的污染。

实际上，车辆油箱中的空气在加注期间被转移到 Delphin 储液箱中。功能多样，便于移动和使用。

派优士：“意大利制造”的创新和品质。

PT. Os veículos diesel com sistema SCR necessitam de abastecimentos periódicos de AdBlue®. Para responder a esta exigência, nos modernos centros de assistência é requerida uma ferramenta Rápida, Fíavel e Limpa. A PIUSI, graças a uma experiência específica de dez anos, após importantes investimentos e longos testes realizou o Delphin PRO DC com o qual o abastecimento de AdBlue® é totalmente automático. Um ponto de chegada que confirma a liderança da PIUSI neste setor.

O novo sistema, projetado para as exigências das oficinas de reparo de automóveis, é facilmente transportável e permite abastecer em segurança os reservatórios dos veículos com AdBlue®. Delphin PRO DC é composto por um robusto carrinho no qual está instalado o bidão para o AdBlue®. Basta um simples gesto no botão de ativação e a bomba elétrica efetua o abastecimento do automóvel. O inovador “closed System” previne saídas de vapores e odores e protege o AdBlue® de quaisquer agentes poluentes externos.

De fato, o ar presente no reservatório do automóvel é deslocado para o reservatório Delphin durante o abastecimento do automóvel. Versatil, fácil de deslocar e de utilizar.

Piusi: Inovação e Qualidade “Made in Italy”.

FEATURES

EN - 1. ISO universal connector:

The connector was developed to be compatible with all tanks for cars. The patented sensor eliminates the risk of leaks, stopping dispensing automatically.

2. Completely Automatic:

Delphin Pro is extremely easy to use as well as intuitive, further reducing refilling times. The digital meter lets you check the quantity dispensed. The entire refilling process is automatic.

3. Flow regulator 3-10 l/min

ZH - 1. ISO通用连接器:

连接器专为与所有类型的汽车油箱兼容而开发。获得专利的传感器可自动停止供应，消除泄漏的风险。

2. ISO通用连接器:

Delphin Pro 的使用格外简单、直观，进一步降低了加注时间。数字仪表可以检查加注量。整个加注过程是全自动的。

3. 流量调节器3-10升/分钟

PT - 1. Conector universal ISO:

O conector foi desenvolvido para ser compatível com todos os reservatórios para automóveis. O sensor patenteado zera os riscos de saídas, bloqueando automaticamente o fornecimento.

2. Totalmente Automático:

O Delphin Pro é extremamente simples de utilizar e intuitivo, reduzindo ainda mais os tempos de abastecimento. O contador de litros digital permite controlar a quantidade fornecida. O processo completo de abastecimento é automático.

3. Regulador de Vazão 3-10 l/min

FEATURES

- EN.**
4. Self-Cleaning Sensor: Piusi's patented solution for the Delphin PRO makes sure that the sensor is always clean, without maintenance.
5. Drum-holder trolley: Easy to modify simply by moving the wheels, to hold 60- or 200-litre drums.
6. More than 50 filling services with a single charge
- ZH.**
4. 自清洁传感器: 派优士公司为Delphin PRO 系统开发并获得专利的解决方案, 可保证传感器保持清洁, 无需维护。
5. 尿素桶手推车: 更换容易, 只需简单地移动车轮, 就可以容纳60或200升的尿素桶。
6. 50多提供一次充电
- PT.**
4. Sensor Autolimpador: A solução patenteada pela Piusi para o Delphin PRO garante a limpeza constante do sensor sem a necessidade de manutenção.
5. Carrinho porta-bidões: Facilmente modificável com um simples deslocamento das rodas para receber bidões de 60 ou de 200 litros.
6. Com uma carga de bateria, mais de 50 abastecimentos
